**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 7-9 are allowed.

**REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:
3. Claims 7 and 9 distinguish over the prior art of record in that the Applicant specifically claims that the accumulated evaluation value computing procedure computes the time difference between the time when the player actually presses the button and the time the displayed command image passes the operation criterion position as a standard and it then computes an evaluation value which corresponds to the computed time difference for every command image, the prior art does not teach these features. The prior art also does not teach ting and playing aback a start pitch at the time of playback of the partial song data with melody which corresponds to the command image which is not judged to be passed by the pass judgment procedure, and that the pass playback procedure plays back the partial song data with melody with the standard pitch of the partial song data with melody which corresponds to the command image which was judged to be passed and is stored in a music file in spite of the accumulated evaluation value located in memory at the time when playing back the partial song data with melody.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
